

iMessage service with Dedman Gray Auctions

In an effort to keep all our registered users up to date with the latest auction news, future auctions, lots, price changes and special interest properties we are utilizing the latest software update from Apple, their new operating system iOS 5. If you have an iPhone, iPhone 4S, iPad or iTouch running the upgrade software, this is what you need to do:

1. Add our details into your device as a contact, making sure that you entered the following:

Email address: russellhawkes@dedmanauctions.com

Mobile number: 07957132882

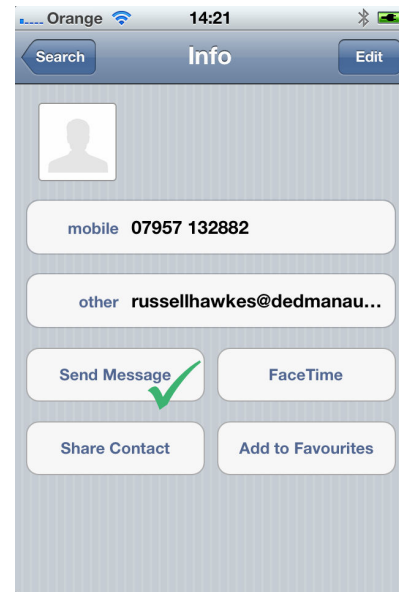

2. Next, send us a text message from your contacts:

Just put in the message “please register me for iMessage update”

NB. We are registered with an Apple ID and our device is already iOS 5 enabled – therefore, you should be able to message us for free. Your device will recognize both the phone number and the email address!

When we receive your text, we will register your details on Our contacts database

And that’s it!

Start receiving free message updates – and best of all, you can message us back anytime
